BIRDS OF PREY

NORTH AMERICA'S DOWNHILL
BEAVER CREEK, COLORADO

VALLEY FOUNDATION

Dear _____,

PLEASE EXCUSE _____ from attending work on Friday, December 1. It appears as though a strong case of early-season *Nix Diligitis* has onset in the patient. Therefore we are prescribing fresh air, refreshment, therapeutic relaxation with friends, live music at F.A.C. in Beaver Creek Village, and free spectating at one of the greatest ski races on the World Cup Circuit at the Birds of Prey World Cup Super G Friday. For best results, the patient should attend Birds of Prey races and after-parties all throughout the weekend.

Sincerely,

Dr. Ted Ligety & Dr. Steven Nyman
